District 9

California Log of Bridges on State Highways

Contents

Bridge List Items and Keys to Coded Information.....	ii
County Table.....	v
Alphabetic City Code Table.....	vi
District Log.....	1
Index of Bridge Numbers.....	11

Prepared by
California Department of Transportation
Structure Maintenance & Investigations

The information in this publication is available on the World Wide Web at:
<http://www.dot.ca.gov/hq/structur/strmaint/brlog2.htm>

BRIDGE LIST ITEMS AND KEYS TO CODED INFORMATION

Postmile

Entries in **BOLD** type show DISTRICT-COUNTY-ROUTE. Other entries show postmile prefix followed by postmile to the nearest hundredth of a mile. Prefixes of R, M, and N refer to re-aligned routes. Prefix L refers to a section or route paralleling another route. When the route is on the deck of the bridge, the postmile is recorded at the beginning of the structure (i.e. the lowest postmile on the bridge). When the route goes under the structure, the postmile is recorded on the underpassing route where the structure is first encountered. All other measurements in this publication are given in meters.

Bridge Number

The official structure number assigned by CalTrans. The Bridge Number Suffix carries information about the function of the structure.

Blank	Structure carrying two-way traffic
C	Center structure
E	Connector structure
F	Connector structure
G	Connector structure
H	Connector structure
J	Outer outer left
K	Left outer highway structure
L	Left structure of left inner structure
M	Buried Hazard or miscellaneous structure
R	Right structure or right inner structure
S	Right outer highway structure
T	Outer outer right
W	Drainage pumping plant
Y	Structure on State-owned and maintained connections no on main highway (may be closed)
Z	Access to private property or closed with no access

OU

"O" Indicates that the route is carried on the deck of the structure

"U" Indicates a route crossing under the structure.

O - Structure Name U - Roadway Under or Route Information

When route traffic is on (O) the structure, the structure name is shown. When route traffic is under (U) the structure, the roadway name is shown, otherwise, miscellaneous route information is shown.

Structure Types

Code for main span type followed by approach span type (if different).

First character (Material):

1 = Concrete
 2 = Concrete continuous
 3 = Steel
 4 = Steel continuous
 5 = Prestressed concrete
 6 = Prestressed concrete continuous
 7 = Wood or timber
 8 = Masonry
 9 = Aluminum, wrought iron, or cast iron
 0 = Other

Second & Third characters (Design):

01 = Slab
 02 = Stringer/Multi-beam or Girder
 03 = Girder and Floorbeam System
 04 = Tee Beam
 05 = Box Beam or Girders - Multiple
 06 = Box Beam or Girders - Single or Spread
 07 = Frame (except frame culverts)
 08 = Orthotropic
 09 = Truss - Deck
 10 = Truss - Thru
 11 = Arch - Deck
 12 = Arch - Thru
 13 = Suspension
 14 = Stayed Girder
 15 = Movable - Lift
 16 = Movable - Bascule
 17 = Movable - Swing
 18 = Tunnel
 19 = Culvert
 21 = Segmental Box Girder
 22 = Channel Beam
 00 = Other

City

CalTrans alphabetic code for the city or government land within whose limits the bridge exists. The Alphabetic City Codes Table shows the full city names corresponding to these codes. Where a name is preceded by an asterisk, it indicates a bridge on government lands not within any city limits.

Bridge Length

The length of the structure from paving notch to paving notch in meters.

Width

The out-to-out width of the structure to the nearest tenth of a meter. For through structures, the lateral clearance between superstructure members. For flared structures, the minimum deck width. No width is shown for non-grade-top culverts or structures not carrying vehicular traffic, such as underpasses or pedestrian overcrossings.

Number of Spans

The number of span in the structure. Upper-level spans of double deck structures are not included in this count.

Min VC Over Roadway

The minimum vertical clearance over the traveled way portion of the ROUTE in meters. In the case of arches, tunnels, through trusses, etc, where the minimum clearance does not give a true picture, an asterisk ("**") is shown after the clearance. In such cases, an accurate depiction of the available vertical clearance may be obtained from the structure clearance diagram which resides within the office of Structure Maintenance and Investigations.

Sidewalk Widths

The minimum width of left and right sidewalks or curbs, to the nearest tenth of a meter. Where this value is 1 meter or greater, the structure is considered to carry pedestrian traffic.

Year Built (Original Construction) and Year Widened or Extended

The year of original construction. For some older bridges, this may be an estimate.

Permit Rating

Permit ratings are shown for information only. They should not be used for permit issuance. .

The permit rating is usually a string of five characters showing permit capacity for 5,7,9,11, and 13 axle vehicles. Where a single character is shown, it represents an "administrative" rating.

- P Purple permit capacity
- G Green permit capacity
- O Orange permit capacity
- X No permit capacity

Permit rating are for information only. They are not to be used for permit issuance.

P (Posting)

Posting -

- B Open - posting recommended
- D Open under temporary conditions
- E Open - temporary structure
- G New structure - not yet open
- K Closed to all traffic
- M Closed or partially closed pending repairs
- J Posted for load
